

Reconnaissance Soil and Stream Sediment Sampling

Geochemical Trends

- Elevated Au
- Elevated Au, As And Sb
- Elevated Au, As
- Elevated Sb

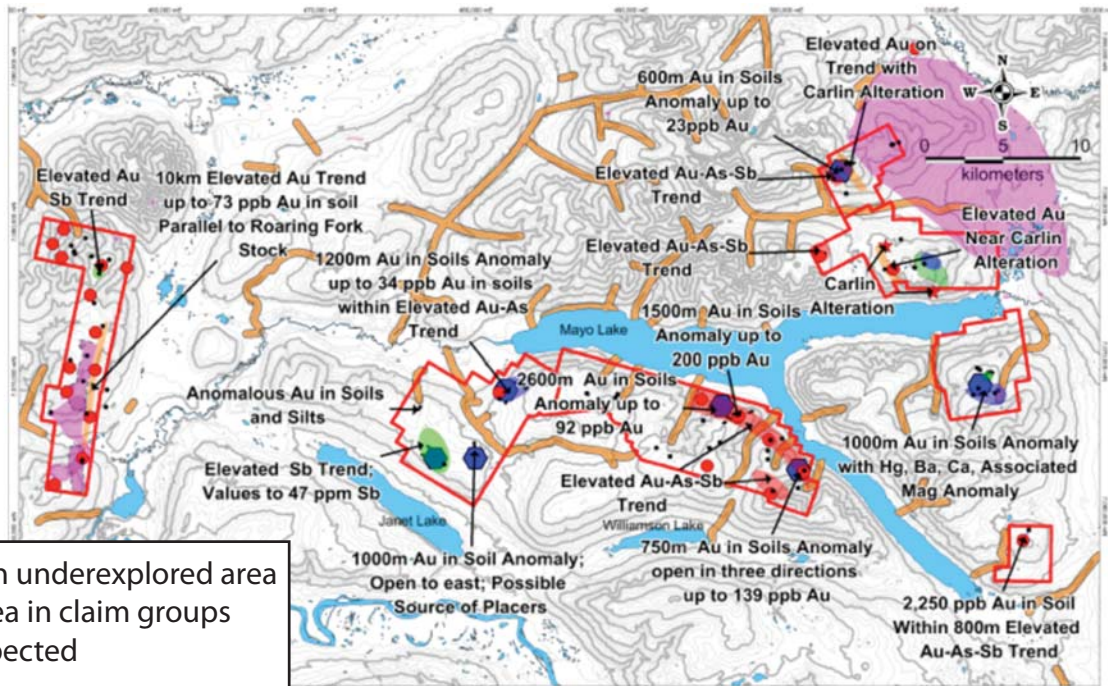

Significant Sample Site

- 20 to 2,250 ppb Au in Soil
- 9 to 20 ppb Au in Soil

Grid Sampling Area

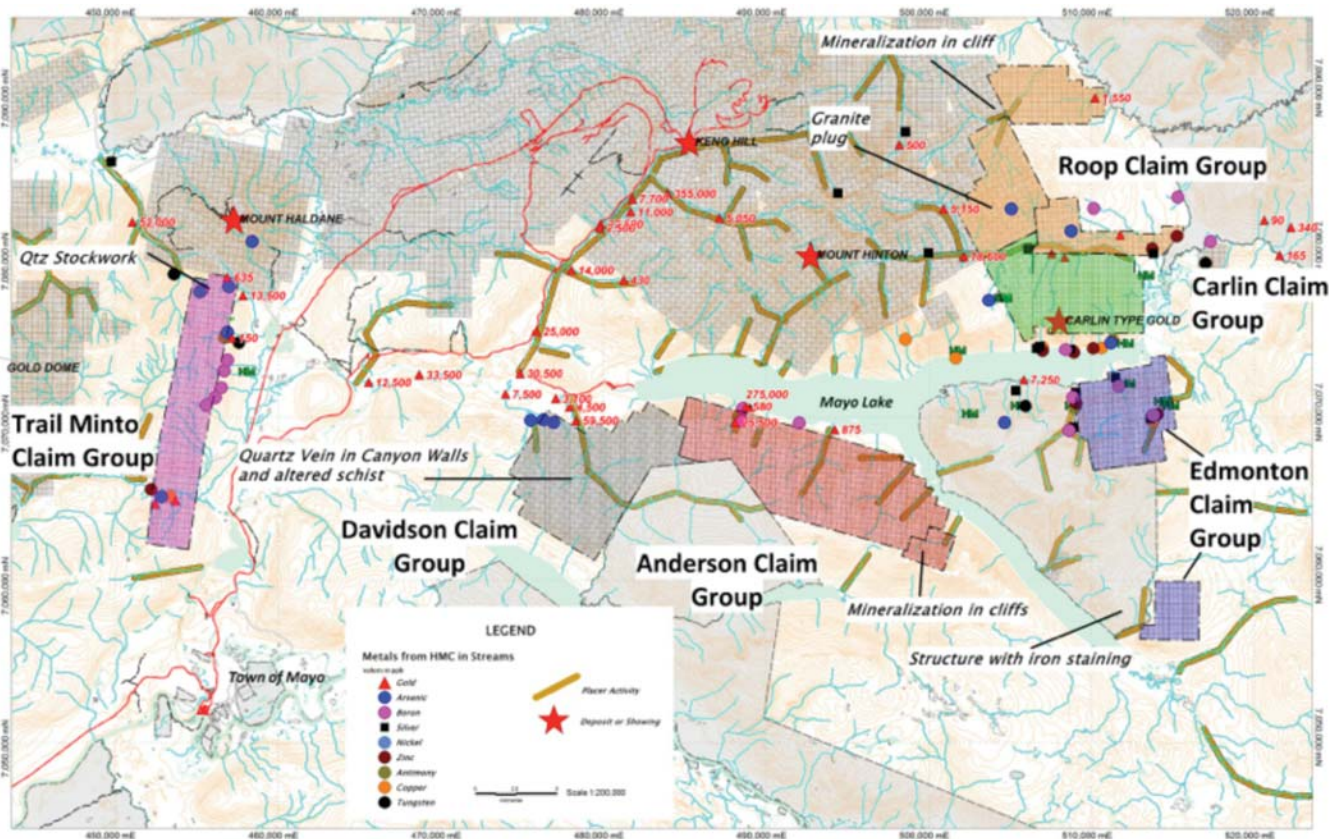

- MLM Soil Grid

- MLM Claim Group
- Tombstone Suite Intrusion
- Gabbro Intrusion
- Carlin Alteration
- Placer Workings

- Exploration success in underexplored area
- Much prospective area in claim groups not sampled or prospected

MLM Geophysics and Soil Geochem Delineates Significant Prospects

Placer Operations and Overlooked Geological Data from 1960s

Mayo Lake Minerals Inc.
